

# **4th Annual Region 9 Masters Clinic**

## **March 15, 2008, 10 am until 5pm**

### **Bethlehem, PA**

Bring your masters car to this clinic with the 2 shell halves glued together and the running gear assembled to the floorboard. We will assist you with fitting the hatch and headrest, as well as mounting the airfoils.

Bring all the glues and body fillers with you and it will be possible to leave this clinic with a shell that needs minimal body work to be completed.

If your running gear is installed we will look it over and give suggestions on washer stacks & etc.

This will be an intensive hands on clinic, bring any tools you think you will need. We will have a limited number of tools available for use.

Please bring your own safety equipment (goggles, gloves, dust masks etc.) and an extension cord, if you plan on working on your car.

All are welcome. This clinic is open to any interested racing families.

You don't need to bring a car to attend this clinic, if you just want to learn how to detail these areas of the car.

For more information contact: Jim Hagan (301-252-7035) or George Weissgerber (301-598-5001)

#### DIRECTIONS

The clinic will be held at General Supply Co. 2651 Baglyos Circle, Bethlehem, PA 18017 at the top of the hill at the track in Bethlehem.
